

Why Choose Nit Picky?

Nit Picky offers a safe and effective head lice treatment that eliminates head lice with all natural products and a professional removal process. We quickly eradicate the problem so that you can get back to your every day way of life.

Families are also saved time and money from ineffective treatments and time taken off from work and school.

Nit Picky vs. Lice Shampoos

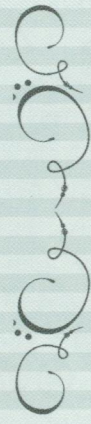

Many over the counter lice shampoos and prescriptions contain pesticides that head lice are developing a resistance to. They may work to kill off the live lice, but they do not kill all of the eggs (nits). There are also harmful health issues that arise from the use of pesticides. Nit Picky offers a natural head lice treatment, that is safe, effective and guaranteed.
